

Safeguarding Cash FOR COMMUNITY ASSOCIATIONS

Options for Safety and Yield in Any Market

It is as important as ever for Community Association Managers to keep association reserves and operating cash safe while still earning a return – especially in this uncertain world.

Join us for this free webinar that will provide you with the tools needed to support your fiduciary responsibilities as a Community Association Manager. In addition, you can earn 1 continuing education credit through the State of Florida Department of Business and Professional Regulation - Regulatory Council of Community Managers.

This session will cover:

- Challenges facing Community Association Managers in today's economic climate
- Objectives for managing community association operating cash and reserves – investment guidelines and requirements
- Accepted cash management options
- FDIC-insured deposit options for community associations and how they work
- Examples: Community associations that benefited from extended FDIC-insured options
